

EWPA – key organisation in the Estonian renewable energy sector

WHO WE ARE:

The Estonian Wind Power Association (EWPA) provides a common voice to all wind power developers in Estonia. The main aim of EWPA is to advance the wind energy application in Estonia and contribute to the main objectives of energy policy in Estonia and Europe - energy market liberalization, decentralization and security of energy supply through wider use of renewable energy. At the moment EWPA has 21 members

and it aims to create a forum for constructive dialogue with the Estonian government and other key stakeholders. EWPA is a member of the European Wind energy Association.

COLLABORATION INTERESTS:

EWPA is interested in projects and collaboration in the area of environment and renewable energy production with research organisations, private businesses and in the consultancy area. Possible role in collaboration: research partner, coordinator.

AREAS FOR R&D COLLABORATION:

- Renewable energy
- Environment

MAIN ACHIEVEMENTS:

- Good market position
- Success in influencing the legislation concerning renewable energy
- Known as professionals in the field of renewable energy (wind power)
- Thanks to the work of EWPA, wind energy is considered the most influential in the Estonian energy sector

REFERENCE PROJECTS:

Selection of EC projects

INTERREG IIIB - Wind energy in the BSR - Planning, Construction and Investment
www.windenergy-in-the-bsr.net

INTERREG IIIC – Wind-Tech-Know - Regional Wind Technology and Knowledge Transfer Strategies
www.windtechknow.net

Selection of other projects

Estonian environmental impact assessment (EIA) documentation composition for wind turbine generators (WTG) and wind-parks.

OTHER INFORMATION:

Name of the company:
Estonian Wind Power Association (EWPA)
Legal structure: SME
Country: Estonia
Number of researchers: 0
Number of employees in total: 2
Working languages: Estonian, English

Contact person: Jaan Teppo
Position: Chairman of the Board
Email: jaan@tuuleenergia.ee
Tel: (+372) 661 3652;
(+372) 5340 4422

**WHAT
MAKES US
A GOOD
PARTNER**

- Professionals with long-term experience in the field
- Highly respected and well-known in the energy sector
- EWPA unites almost all wind energy producers in Estonia
