

GiLAconsult

Creativity and know-how in IBM/Lotus solutions

WHO WE ARE:

GiLAconsult - Gesellschaft für innovatives Lernen und Arbeiten is an SME established in 2000 and situated in northern Germany. The company specialises in consulting and software development for e-learning, knowledge management and human resources development.

As one of **IBM/Lotus** Business Partners it develops highly innovative and integrated tools and solutions for SME based on IBM/Lotus Notes/Domino, Lotus/IBM Sametime (Instant Messaging & Web Conferencing), IBM/Lotus QuickR (virtual Project Rooms), Moodle (Learning Management System), Joomla (Web Content Management System).

COLLABORATION INTERESTS:

GiLAconsult is interested in participating in EU projects under FP7 related to technology enhanced learning, knowledge management, web2.0 services and applications.

Potential role:

- Partner responsible for development, integration and demonstration
- Subcontractor responsible for software development and web design

AREAS FOR R&D COLLABORATION:

- **Application of multimedia technologies for vocational and professional training**
- **Development, design and implementation of virtual knowledge communities and e-learning platforms**
- **Development of application databases**

MAIN ACHIEVEMENTS:

One of the most significant projects carried out by GiLAconsult was the development of a **paperless virtual organisation** which can be used for educational purposes. This project which was carried out in cooperation with tele-working and tele-learning association Flexworker.org e.V. was awarded the e-Learning Award 2005 of e-Learning-Journal, award of the German Chamber of Industry and Commerce and Wirtschaftswoche 2005 and also DEICHMANN award 2006 for job initiatives against youth unemployment. It was further nominated for the European e-learning award eureleA 2006 and the German e-learning innovation award D-ELINA.

REFERENCE PROJECTS:

GiLAconsult has participated as a technical partner in various IT projects at regional and national level related to e-learning and virtual training portals.

Selection of projects:

www.vuefa.de – browser-based, paperless **virtual e-training company** platform developed for the vocational training centre for disabled and handicapped trainees of Berufsbildungswerk des Annastift e.V.

www.neue-arbeit.de – project on **tele-learning and tele-working** supported by the German Federal Ministry of Labour

www.bz-bildungszentrum.de – development of an **electronic Customer Relationship Management System Platform** to administrate and manage vocational training (ePOS – electronic Project/Personal Organisation System)

WHAT MAKES US A GOOD PARTNER:

- Creativity and flexibility of our team
- Experience and know-how in the field of information technologies, project implementation and didactics
- Well established network of partners
- Connections to sector relevant associations and potential users/testers
