

# Interconsult Bulgaria Ltd. – Software and IT solutions developer

## WHO WE ARE:

**Interconsult Bulgaria Ltd. (ICB)** is a leading software development company established in 1996. ICB provides services for the development of **high performance software solutions**. Since its establishment, ICB has registered continuous growth in revenue and staff. Today the company employs more than **65 highly qualified professionals** with business and IT background, experienced in working on large-size IT projects with international participation. Most of ICB's international clients are **large companies from Norway, Denmark, UK, and USA**. ICB constantly holds a place among **TOP 10 Bulgarian software development exporters**.

**WHAT  
MAKES US  
A GOOD  
PARTNER**

- Reliable, **highly qualified** and **experienced team**;
- **Expertise in large scale projects** with international participation;
- Expertise in object oriented analysis, design and development;
- Working according to **international standards**;
- ICB applies rigorous project management procedures.

## COLLABORATION INTERESTS:

- ICB is interested in participating in projects under EU IST programmes and in other international co-operation projects related to research and development of software solutions.
- Possible role in collaboration – technology provider, commercial subcontractor.

## AREAS FOR R&D COLLABORATION:

- ICT-based applications, solutions and services;
- Supporting business processes e.g. workflow architectures, work optimisation;
- Software applications operating with large databases with remote and web-based access;
- Applications for mobile devices/ PDAs.

## MAIN ACHIEVEMENTS:

- ICB received the 1998 European IT Prize for the software system ENSIS - an integrated information system for environmental surveillance;
- ICB developed the EasySafe software - a cash settlement system that serves 75% of the Norwegian cash.

## REFERENCE PROJECTS:

Interconsult Bulgaria Ltd. has been involved in a number of research and development projects including two funded by the EU IST.

### Selection of EU projects:

**PLEXUS (FP5 – IST project):** Developing decision support tools and methods for the management and measurement of intellectual assets across cooperative networks. Role of ICB: software development partner.

**ENSIS (FP4 – IST project):** Developing an integrated environmental management system for monitoring air and water quality and environmental pollution prognosis. Role of ICB: software development partner.

### Selection of other projects:
