

# Invent Baltics - We Make Innovation Happen!

invent baltics

## WHO WE ARE:

Invent Baltics OÜ is an innovation/business consulting company. Our ambition is to help clients develop their new ideas into marketable products and/or services, find suitable partners for this aim and offer support in commercialising the developed product/service and entering new markets. The consultants of Invent Baltics have years long experience in assessing the innovativeness and feasibility of ideas, best knowledge in transforming an idea into a successful project and finding private and public financing for the realisation of the project as well as in preparing market research, feasibility studies, business and financing plans. The consultants have long track record in the preparation and coordination of Framework Programme R&D projects and in conducting international technology transfer.

## COLLABORATION INTERESTS:

Invent Baltics is interested in providing project preparation and international consortium building services in the area of ICT. Senior consultants of Invent Baltics have established a remarkable network of professional contacts and cooperation partners around Europe, which enables to gather a solid consortium meeting the required expertise and project expectations within limited amount of time.

Invent Baltics has also good practical experience

organizing the project negotiations process with the European Commission and providing project management services for the entire consortium. We are also interested in taking on the role of the administrative coordinator for research and development projects.

## AREAS FOR R&D COLLABORATION:

Project preparation  
Consortium building  
Negotiations with the European Commission  
Project management  
Administrative coordination

## MAIN ACHIEVEMENTS:

The senior consultants of Invent Baltics have good knowledge in preparing successful Framework Programme projects. In the ICT area Invent Baltics has prepared two successful Framework Programme projects in FP6 and FP7. These are the only projects under the ICT area which are coordinated by Estonian organizations.

ROBOSWARM – [www.roboswarm.eu](http://www.roboswarm.eu)  
SMARTMUSEUM – [www.smartmuseum.eu](http://www.smartmuseum.eu)

Our consultants are Estonia's leading experts in EU Framework Programme and its related programmes. In addition to Estonian universities and research institutes we have clients in Finland (Helsinki University of Technology, Oulu University), Italy (University of Genova), Great Britain (Cardiff University, University of Ulster), Spain (Madrid University, Fatronik, etc.), InAccess Networks (Greece), Sweden (KTH - Royal Institute of Technology).

## REFERENCE PROJECTS:

Invent Baltics is participating in an FP6 project "ERANIS" aiming to facilitate the participation of Ukraine, Russia, Belarus and Moldova in the activities of FP7. Invent Baltics is providing project writing training to local researchers and partner search service to facilitate new contacts. Invent Baltics is also partner in the Enterprise Europe Network financed by the European Commission. The Enterprise Europe Network is the largest network of contact points in Europe providing SMEs advice and assistance on:

market opportunities,  
finding suitable business partners using its business and technology cooperation database,  
Developing the research and innovation capacities of SMEs by helping to create synergies with other research actors, foster technological cooperation and holding brokerage events.

Helping SMEs to share research results, participate in research programs and apply for funding, particularly from EUs Seventh Framework Programme.

Our consultants have advised the process of signing 12 international technology transfer agreements. In 2004 the IRC (Innovation Relay Centre) Network Secretariat awarded a prize for the best technology transfer agreement to Invent Baltics consultant Paul Pällin.
