

Mobi Solutions – Provider of innovative mobile solutions and m-services

WHO WE ARE:

Mobi Solutions is an Estonian company working together with telecommunications operators and technology companies in Northern Europe, developing **value-added mobile applications and services**. We are an **experienced mobile applications developer** focusing on **SMS, WAP, GPRS, 3G, Java, Symbian**, etc. In addition to software development, we provide consultancy and are experienced in creating reports, surveys and white-papers. Our most innovative projects are in the fields of **m-government, m-ticketing** in transport, **m-education**, and community-based **mobile entertainment**.

WHAT MAKES US A GOOD PARTNER

- **Unique focus and strong experience** in m-government
- Strong core competency in mobile applications analysis, development and provision; a portfolio of over **50 market-tested applications**.
- Strong emphasis on **innovative and cutting-edge solutions**
- Participation as consultants, researchers and lecturers in international projects and events
- Previous **experience with national-level and EU projects**

COLLABORATION INTERESTS:

Mobi Solutions is interested in partnership in EU FP7 IST projects, especially if the project includes mobile component development using any of the following technologies: SMS, WAP, GPRS, 3G, Java (J2ME) and Symbian. Our core competence is developing software and mobile applications that run on mobile devices, as well as testing and analysis.

Possible role in collaboration: research partner, technology and software provider, consultancy

AREAS FOR R&D COLLABORATION:

- e- and m-government (mobile services in the public sector, local and national governments)
- mobile applications in education, healthcare, culture, law enforcement, entertainment
- m-ticketing, m-parking
- mobile applications development and technology provision
- consultancy on national and country reports in ICT, technology white-papers, other research and soft projects.

MAIN ACHIEVEMENTS:

- Most innovative company in Estonia by leading business daily "Äripäev" (2001), among top five innovators in Estonia by Enterprise Estonia (2006).
- Winner of World Summit Awards 2005 Estonia.
- One of the most successful mobile applications providers for governments and enterprises in the Baltic States.

REFERENCE PROJECTS:

Mobi Solutions has been involved in several FP - IST projects as a partner in the development of mobile components. We have participated in national and European research and R&D projects.

Selection of EC projects

COGKNOW (FP6): Helping people with mild dementia to navigate their day. The aim of the project was to develop a device to assist people with mild dementia. Our role: technology and software provider, analysis

Selection of other projects
